Subject index

Accommodation
caffeine, AC/A ratio, convergence, accommodative convergence, human 489
Adenylyl cyclase
iris/ciliary body, phorbol ester, protein kinase C, guanine nucleotide binding proteins, rabbit 507
Adhesion molecules
inflammation, sympathetic opthalmitis, human 923
integrins, uveitis, endotoxin, iritis, interleukin-1, rabbit 827
Adrenergic nerves
diabetes, choroid, iris, streptozotocin, rat 89
Age
lamina cribrosa, retina, optic nerve, proteoglycan, electron microscopy, human 685
Aging
lens, cataract, crystallins, isoelectric focusing, calorie restriction, life extension, Emory mouse 1081
retinal pigment epithelium (RPE), cytochrome oxidase, aging maculopathy, energy, human, bovine 1073
retinal pigment epithelium (RPE), morphology, hexagonality, area, density, fovea, human 133
Aldose reductase
lens, hexokinase, sorbitol, aldose reductase mRNA, sorbitol dehydrogenase mRNA, hexokinase mRNA, mouse/rat 323
protein kinase C, Tolrestat, lens epithelium, galactosemia, lens, bovine 373
Alpha crystallin
lens, protein binding, urea membrane, native membrane, rat, bovine 1025
Animal models
onchocerciasis, filaria, ocular lesions, murid, *Monanema* 885
Anterior segment
lens crystallins, $\alpha\beta$-crystallin, immunocytochemistry, primate, bovine 871
Antibiotics
toxicology, retina, gentamicin, aminoglycosides, retinal toxicity, endopthalmitis, pig 521
Antimicrobial agents
corneal epithelium, toxicity, gram-positive pathogens, bacterial keratitis 603
Antimicrobials
wound healing, cornea, epithelial migration, adverse effects, rabbit 733
Aqueous humor
fluorophotometry, blood-aqueous barrier, aqueous flow, aqueous flare, precision, circadian rhythm, human eye 621
intraocular pressure, aqueous humor formation, vascular perfusion, timolol, bovine eye 609
Aqueous humor dynamics
glaucoma, outflow facility, ocular perfusion, bioengineering, human eyes 765
intraocular pressure, melatonin, circadian, rabbit 181
prostaglandin, intraocular pressure, circadian rhythm, sulprostone, norepinephrine, sympathetic nerve, rabbit 975
Arachidonic acid
docosahexaenoic acid, retina, lipid metabolism, fatty acids, frog 851
Ascorbic acid
iris-ciliary body, dehydroascorbate reductase, enzyme, redox state regulation, bovine 593

Blood flow
ocular development, choroid, myopia, myopic retinopathy, goggles, chick 219
ocular development, choroid, ocular enlargement, corneal incisions, myopia, chick 229
Blood vessels
retina, fractal analysis, angiogram, image analysis, human 23
Blood-aqueous barrier
fluorophotometry, aqueous humor, aqueous flow, aqueous flare, precision, circadian rhythm, human eye 621

Caffeine
accommodation, AC/A ratio, convergence, accommodative convergence, human 489
Calcium
calpain, hydrogen peroxide, cataract, lens, lens culture, E64 341
cataract, galactose cataract, cataract reversal, lens ion content, rat 675
corneal endothelium, receptors, cultured cells, neurohormones, intracellular calcium, inositol phosphates, bovine/human 303
retinal pigment epithelium (RPE), membrane transport and permeability, apical membrane vesicles, sodium−calcium exchanger, fluorescent probes, bovine, dogfish 261
selenite, lens, membrane transport and permeability, Ca-ATPase 213
Calpain
hydrogen peroxide, calcium, cataract, lens, lens culture, E64 341
Cataract
calcium, galactose cataract, cataract reversal, lens ion content, rat 675
calpain, hydrogen peroxide, calcium, lens, lens culture, E64 341
glutathione-S-transferase, lens epithelium, distribution, activity, isoenzymes, human 433
lens, glutathione, glutathione S-transferase, isozyme, naphthalene cataract, rabbit 333
lens, glutathione, sodium, potassium, rat 115
lens, progression, epidemiology, lens opacities, human 123
lens, ultraviolet irradiation, UVB, rainbow trout 97
lens epithelium, oxidative damage, DNA, human 423
oxidative damage, lens, hydrogen peroxide, glutathione peroxidase mimics, riboflavin, rat 163
phacoemulsification, oxidative damage, free radicals, *in vitro*, hyaluronan, rabbit 359
Choroid
diabetes, adrenergic nerves, iris, streptozotocin, rat 89
Cicatricial pemphigoid
conjunctiva, cornea, COLO/SCaBER tumor cell lines, autoantigen, anti-basement membrane zone antibody, immunoblot technique, human 741
Ciliary body
growth factors, ciliary epithelium, immunohistochemistry, immunogold labeling 893
prorenin, immunostaining, electron microscopy, human 945
Ciliary epithelium
endothelin, immunohistochemistry, human 753
Ciliary muscle
outflow facility, contractility, cholinergic agonists, aging, *Macaca mulatta* 413
Circadian rhythm
iris-ciliary body, neuropeptide Y, circadian rhythm, enzyme immunoassay, rat 803
prostaglandin, intraocular pressure, aqueous humor dynamics, sulprostone, norepinephrine, sympathetic nerve, rabbit 975
Collagen
fibronectin, cornea, wound healing, growth factors, transforming growth factor β (TGFβ), epidermal growth factor (EGF) corneal stromal fibroblasts 703
sclera, immunogold, electron microscopy, immunohistochemistry, human 143
vitreous, aging, cross-links, electrophoresis, bovine, human 951
vitreous, beaded fibrils, fibrils, gel, bovine 107
Conjunctiva
cicatricial pemphigoid, cornea, COLO/SCaBER tumor cell lines, autoantigen, anti-basement membrane zone antibody, immunoblot technique, human 741
membrane transport and permeability, chloride secretion, electrophysiology, dry eye, rabbit 1041
Conjunctivitis
corticosteroids, contact lens, giant papillary conjunctivitis 313
Contact lens
corticosteroids, conjunctivitis, giant papillary conjunctivitis 313
Pseudomonas aeruginosa, infective keratitis, cornea, bacterial adherence, pili 1067
Cornea
antimicrobials, wound healing, epithelial migration, adverse effects, rabbit 733
cicatricial pemphigoid, conjunctiva, COLO/SCaBER tumor cell lines, autoantigen, anti-basement membrane zone antibody, immunoblot technique, human 741

collagen, fibronectin, wound healing, growth factors, transforming growth factor β (TGFβ), epidermal growth factor (EGF) corneal stromal fibroblasts 703
eicosanoids, platelet activating factor, corneal PAF precursor, arachidonic acid, corneal injury, phospholipase A_2, rabbit 655
herpes simplex virus, fractals, keratitis, morphology, pathogenesis 957
keratitis, leukopenia, *Pseudomonas*, rabbit 461
Pseudomonas aeruginosa, prednisolone, ciprofloxacin, keratitis, rabbit 469
retina, prostaglandins, lens, iris-ciliary body, 15- ketoprostaglandin δ^{13}-reductase, metabolism, bovine 17

Corneal endothelium
calcium, receptors, cultured cells, neurohormones, intracellular calcium, inositol phosphates, bovine/human 303
receptors, muscarinic, cholinoceptors, human 155

Corneal epithelium
differentiation, growth factors, K12 keratin, epidermal growth factor, development, mouse 963
membrane transport and permeability, Na^+-H^+ exchanger, 5- (N-methyl-N-isobutyl), amiloride, plasma membrane vesicles, bovine 69
toxicity, antimicrobial agents, gram-positive pathogens, bacterial keratitis 603

Corticosteroids
contact lens, conjunctivitis, giant papillary conjunctivitis 313

Cyclodextrins
pilocarpine, drug delivery, pupil diameter, rabbit 641

Cytochrome oxidase
retinal pigment epithelium (RPE), aging, aging maculopathy, energy, human, bovine 1073

Cytoskeleton
lens, beaded filament, intermediate filament, cytokeratin, cDNA sequencing, antibodies, mouse 77
lens, beaded-filament, cytokeratin, cDNA sequencing, chick 583

Developmental biology
lens, receptors, tyrosine kinase, PCR, chicken 759
retina, inositol phosphates, carbachol, muscarinic receptors, pigmented rat 439

Dexamethasone
trabecular meshwork, morphometrics, glaucoma, electron microscopy, cultured human cells 783

Dexmedetomidine
drug delivery, systemic absorption, topical administration, cardiovascular effects, rabbits 451

Diabetes
adrenergic nerves, choroid, iris, streptozotocin, rat 89
retina, Na^+ K^+-ATPase, streptozotocin, Zucker diabetic fatty rats 1111
retinal vasculature, ionizing radiation, rat 1009

Diabetic retinopathy
neovascularisation, fractal, diabetes mellitus, retinal vessels 1103

Differentiation
corneal epithelium, growth factors, K12 keratin, epidermal growth factor, development, mouse 963

Docosahexaenoic acid
arachidonic acid, retina, lipid metabolism, fatty acids, frog 851

Drug delivery
cyclodextrins, pilocarpine, pupil diameter, rabbit 641
dexmedetomidine, systemic absorption, topical administration, cardiovascular effects, rabbits 451
soft drugs, mydriatics, corneal penetration, scopolamine, anticholinergics, rabbit 501

Eicosanoids
cornea, platelet activating factor, corneal PAF precursor, arachidonic acid, corneal injury, phospholipase A_2, rabbit 655

Endophthalmitis
Staphylococcus, bacteria, colony count, rabbit 907

Endothelin
ciliary epithelium, immunohistochemistry, human 753
iris muscle, iris sphincter, iris dilator, BQ-123, rabbit 1049

Experimental autoimmune uveitis
retinal S-antigen, uveitis, rapamycin, immunosuppression 197

Experimental autoimmune uveoretinitis (EAU)
retinal S-antigen, oral tolerance, splenectomy, immunosuppression, rat 833

Extracellular matrix
retinoic acid, growth factors, retina, cell culture, acidic fibroblast growth factor (aFGF), basic fibroblast growth factor (bFGF) retinal microvascular endothelial cells 693

Fibronectin
collagen, cornea, wound healing, growth factors, transforming growth factor β (TGFβ), epidermal growth factor (EGF) corneal stromal fibroblasts 703

Fluorescein angiography
retinopathy of prematurity, retina, vascular pathology, oxygen, rat 561

Fluorophotometry
blood-aqueous barrier, aqueous humor, aqueous flow, aqueous flare, precision, circadian rhythm, human eye 621

Fractal analysis
blood vessels, retina, angiogram, image analysis, human 23

Fractals
diabetic retinopathy, neovascularisation, diabetes mellitus, retinal vessels 1103
herpes simplex virus, cornea, keratitis, morphology, pathogenesis 957

Gangliosides
uveal melanoma, melanoma, metastasis, murine, liver 347

Gene mapping
tear lipocalin, tear prealbumin, chromosome 9q34, gene cluster, human 1019

Glaucoma
minoxidil, wound healing, 2,4-pyridinedicarboxylate, trabeculectomy failure, bleb scarring, glaucoma, surgery 553
outflow facility, aqueous humor dynamics, ocular perfusion, bioengineering, human eyes 765
trabecular meshwork, intraocular pressure, organ culture, ethacrynic acid, human 385

Glutathione
cataract, lens, sodium, potassium, rat 115
lens, cataract, glutathione S-transferase, isozyme, naphthalene cataract, rabbit 333
retina, oxidative damage, phospholipid hydroperoxide, glutathione peroxidase, cumene hydroperoxide, hydrogen peroxide, bovine 9

Glutathione-S-transferase
lens epithelium, cataract, distribution, activity, isoenzymes, human 433

Glycoproteins
Na^+ K^+-ATPase, membrane transport and permeability, lacrimal system, receptors, sex dependence, androgens, rabbit 795

Growth factors
ciliary body, ciliary epithelium, immunohistochemistry, immunogold labeling 893
collagen, fibronectin, cornea, wound healing, transforming growth factor β (TGFβ), epidermal growth factor (EGF) corneal stromal fibroblasts 703
corneal epithelium, differentiation, K12 keratin, epidermal growth factor, development, mouse 963
extracellular matrix, retinoic acid, retina, cell culture, acidic fibroblast growth factor (aFGF), basic fibroblast growth factor (bFGF) retinal microvascular endothelial cells 693
retina, retina organ culture, *rd* degeneration, photoreceptor proteins, immunocytochemistry, mouse 719
retinal pigment epithelium (RPE), acidic fibroblast growth factor (aFGF), gene expression, cell culture, human 993

Herpes simplex virus
fractals, cornea, keratitis, morphology, pathogenesis 957

Herpes simplex virus type-1
T lymphocytes, keratitis, $CD4^+$ T lymphocytes, $CD8^+$ T lymphocytes, adoptive transfer, mouse 1093

Hexokinase
lens, aldose reductase, sorbitol, aldose reductase mRNA, sorbitol dehydrogenase mRNA, hexokinase mRNA, mouse/rat 323

5-HT
serotonin, iris sphincter muscle, iris, rabbit 665
Hydrogen peroxide
calpain, calcium, cataract, lens, lens culture, E64 341

Infective keratitis
Pseudomonas aeruginosa, contact lens, cornea, bacterial adherence, pili 1067
Inflammation
adhesion molecules, sympathetic opthalmitis, human 923
retinal pigment epithelium (RPE), interleukins, interleukin-1, granulocyte-macrophage colony-stimulating factor, cultured human cells 205
tear film, immunoglobulin A (IgA), closed eye, complement, plasmin, polymorphonuclear (PMN) cells, human 1001
Inositol phosphates
developmental biology, retina, carbachol, muscarinic receptors, pigmented rat 439
Inositol polyphosphates
receptors, retina, phospholipase C, vertebrates 981
Inositoltrisphosphate
retina, light, release, rat 727
Integrins
adhesion molecules, uveitis, endotoxin, iritis, interleukin-1, rabbit 827
Interleukins
retinal pigment epithelium (RPE), inflammation, interleukin-1, granulocyte-macrophage colony-stimulating factor, cultured human cells 205
uveitis, iritis, prostaglandins, interleukin-1, interleukin-2, cyclosporine, rabbit 649
Intraocular pressure
aqueous humor, aqueous humor formation, vascular perfusion, timolol, bovine eye 609
aqueous humor dynamics, melatonin, circadian, rabbit 181
prostaglandin, aqueous humor dynamics, circadian rhythm, sulprostone, norepinephrine, sympathetic nerve, rabbit 975
trabecular meshwork, glaucoma, organ culture, ethacrynic acid, human 385
Ionizing radiation
retinal vasculature, diabetes, rat 1009
Iris
diabetes, adrenergic nerves, choroid, streptozotocin, rat 89
Iris muscle
endothelin, iris sphincter, iris dilator, BQ-123, rabbit 1049
Iris sphincter muscle
serotonin, 5-HT, iris, rabbit 665
Iris-ciliary body
ascorbic acid, dehydroascorbate reductase, enzyme, redox state regulation, bovine 593
neuropeptide Y, circadian rhythm, enzyme immunoassay, rat 803
retina, prostaglandins, cornea, lens, 15- ketoprostaglandin δ^{13}-reductase, metabolism, bovine 17
Iris/ciliary body
adenylyl cyclase, phorbol ester, protein kinase C, guanine nucleotide binding proteins, rabbit 507
Iritis
uveitis, prostaglandins, interleukins, interleukin-1, interleukin-2, cyclosporine, rabbit 649

Keratitis
cornea, leukopenia, *Pseudomonas*, rabbit 461
T lymphocytes, herpes simplex virus type-1, $CD4^+$ T lymphocytes, $CD8^+$ T lymphocytes, adoptive transfer, mouse 1093
Keratoconus
metalloproteinase inhibitor, cornea, TIMP-1, MMP-2, human 877
metalloproteinases, cornea, gelatinase, TIMP-1, TIMP-2, MMP-2, human 571

Lacrimal system
meibomian gland, lipids, casual levels, age and sex differences, Meibometer, human 255
meibomian gland, lipids, Sebumeter, Meibometer, human 247
membrane transport + permeability, Na^+/H^+ antiport, pH regulation, parasympathetic secretomotor control, electrolyte secretion, stimulus-secretion coupling, rabbit 539
Na^+ K^+-ATPase, membrane transport and permeability, glycoproteins, receptors, sex dependence, androgens, rabbit 795
tears, coating inhibitory factor, precipitating inhibitory factor, 30-kiloDalton glycoprotein 531
Lamina cribrosa
retina, optic nerve, age, proteoglycan, electron microscopy, human 685
Lens
aging, cataract, crystallins, isoelectric focusing, calorie restriction, life extension, Emory mouse 1081
aldose reductase, hexokinase, sorbitol, aldose reductase mRNA, sorbitol dehydrogenase mRNA, hexokinase mRNA, mouse/rat 323
alpha crystallin, protein binding, urea membrane, native membrane, rat, bovine 1025
calcium, selenite, membrane transport and permeability, Ca-ATPase 213
calpain, hydrogen peroxide, calcium, cataract, lens culture, E64 341
cataract, glutathione, glutathione S-transferase, isozyme, naphthalene cataract, rabbit 333
cataract, glutathione, sodium, potassium, rat 115
cataract, oxidative damage, hydrogen peroxide, glutathione peroxidase mimics, riboflavin, rat 163
cataract, progression, epidemiology, lens opacities, human 123
cataract, ultraviolet irradiation, UVB, rainbow trout 97
cytoskeleton, beaded filament, intermediate filament, cytokeratin, cDNA sequencing, antibodies, mouse 77
cytoskeleton, beaded-filament, cytokeratin, cDNA sequencing, chick 583
lipids, spectroscopy, membranes, Raman spectroscopy, membrane structure, saturation, human 279
major intrinsic protein (MIP), mRNA, CAT mouse 913
membrane transport and permeability, lens metabolism, ATP, rubidium transport, amino acid transport, cataract, rat 55
myo-inositol, protein kinase C, hyperglycemic conditions, tissue culture, phorbol esters, mixed micelle assay, bovine 403
NCAM, membranes, epithelium, fibers, rat, human 191
receptors, tyrosine kinase, developmental biology, PCR, chicken 759
retina, prostaglandins, cornea, iris-ciliary body, 15- ketoprostaglandin δ^{13}-reductase, metabolism, bovine 17
ultraviolet irradiation, UVA, DNA single strand breaks, DNA repair, cultured lens epithelial cells, rabbit 773
Lens crystallins
anterior segment, $\alpha\beta$-crystallin, immunocytochemistry, primate, bovine 871
Lens epithelium
cataract, oxidative damage, DNA, human 423
glutathione-S-transferase, cataract, distribution, activity, isoenzymes, human 433
transforming growth factor-α (TGFα), immunohistochemistry, rabbit, monkey 1123
Lens protein
membrane protein, MP19, genomic DNA, gene structure, human 1057
retinoblastoma, retina, αB-crystallin, transdifferentiation, heat-shock protein, human 239
Lid-suture
myopia, ocular development, ocular occlusion, ocular enlargement, chicks 479
Lipids
lens, spectroscopy, membranes, Raman spectroscopy, membrane structure, saturation, human 279
meibomian gland, lacrimal system, casual levels, age and sex differences, Meibometer, human 255
meibomian gland, lacrimal system, Sebumeter, Meibometer, human 247

Major intrinsic protein (MIP)
lens, mRNA, CAT mouse 913
Meibomian gland
lacrimal system, lipids, Sebumeter, Meibometer, human 247

lipids, lacrimal system, casual levels, age and sex differences, Meibometer, human 255
Melanoma
uveal melanoma, gangliosides, metastasis, murine, liver 347
Melatonin
aqueous humor dynamics, intraocular pressure, circadian, rabbit 181
Membrane protein
lens protein, MP19, genomic DNA, gene structure, human 1057
Membrane transport and permeability
calcium, selenite, lens, Ca-ATPase 213
conjunctiva, chloride secretion, electrophysiology, dry eye, rabbit 1041
corneal epithelium, Na^+-H^+ exchanger, 5-(N-methyl-N- isobutyl), amiloride, plasma membrane vesicles, bovine 69
lacrimal system, Na^+/H^+ antiport, pH regulation, parasympathetic secretomotor control, electrolyte secretion, stimulus-secretion coupling, rabbit 539
lens, lens metabolism, ATP, rubidium transport, amino acid transport, cataract, rat 55
Na^+ K^+-ATPase, lacrimal system, glycoproteins, receptors, sex dependence, androgens, rabbit 795
retinal pigment epithelium (RPE), calcium, apical membrane vesicles, sodium−calcium exchanger, fluorescent probes, bovine, dogfish 261
Membranes
lens, lipids, spectroscopy, Raman spectroscopy, membrane structure, saturation, human 279
Metalloproteinase inhibitor
keratoconus, cornea, TIMP-1, MMP-2, human 877
Metalloproteinases
keratoconus, cornea, gelatinase, TIMP-1, TIMP-2, MMP-2, human 571
Minoxidil
wound healing, glaucoma, 2,4-pyridinedicarboxylate, trabeculectomy failure, bleb scarring, glaucoma, surgery 553
Mydriatics
soft drugs, drug delivery, corneal penetration, scopolamine, anticholinergics, rabbit 501
Myeloid bodies
retinal pigment epithelium (RPE), diurnal variation, chick 37
retinal pigment epithelium (RPE), retina, outer segment shedding, frog 61
Myo-inositol
lens, protein kinase C, hyperglycemic conditions, tissue culture, phorbol esters, mixed micelle assay, bovine 403
Myopia
lid-suture, ocular development, ocular occlusion, ocular enlargement, chicks 479

N-acetyltransferase
retinal pigment epithelium (RPE), arylamine, arylalkylamine, bovine 271
Na^+ K^+-ATPase
membrane transport and permeability, lacrimal system, glycoproteins, receptors, sex dependence, androgens, rabbit 795
NCAM
lens, membranes, epithelium, fibers, rat, human 191
Neovascularisation
diabetic retinopathy, fractal, diabetes mellitus, retinal vessels 1103
Neuropeptide Y
iris-ciliary body, circadian rhythm, enzyme immunoassay, rat 803

Ocular development
blood flow, choroid, myopia, myopic retinopathy, goggles, chick 219
blood flow, choroid, ocular enlargement, corneal incisions, myopia, chick 229
lid-suture, myopia, ocular occlusion, ocular enlargement, chicks 479
Onchocerciasis
animal models, filaria, ocular lesions, murid, *Monanema* 885
Optic nerve
lamina cribrosa, retina, age, proteoglycan, electron microscopy, human 685
retina, confocal optical sections, three-dimensional imaging, scanning laser ophthalmoscope, human 1015

Outflow facility
ciliary muscle, contractility, cholinergic agonists, aging, *Macaca mulatta* 413
glaucoma, aqueous humor dynamics, ocular perfusion, bioengineering, human eyes 765
Oxidative damage
cataract, lens, hydrogen peroxide, glutathione peroxidase mimics, riboflavin, rat 163
lens epithelium, cataract, DNA, human 423
phacoemulsification, cataract, free radicals, *in vitro*, hyaluronan, rabbit 359
retina, glutathione, phospholipid hydroperoxide, glutathione peroxidase, cumene hydroperoxide, hydrogen peroxide, bovine 9
Oxygen
retinal oxygenation, retina, tissue oxygen tension, oxygen consumption, fluorescence quenching, oxygen maps, rats 809

Perfused eye
normothermic, culture, bovine eye 293
Phacoemulsification
oxidative damage, cataract, free radicals, *in vitro*, hyaluronan, rabbit 359
Phosphodiesterase
retina, retinal dystrophy, rcd-1 mutation, diagnostic test, progressive retinal atrophy, dog 861
Photocoagulation
retinal dystrophy, photoreceptor, retinal pigment epithelium (RPE), Royal College of Surgeons rat (RCS rat), growth factors 367
Photoreceptor
retinal degeneration, retina, opsin synthesis, vitiligo, mi^{vit}, mouse 711
retinal dystrophy, photocoagulation, photoreceptor, Royal College of Surgeons rat (RCS rat), growth factors 367
visual pigment, retina, antibody, epitope, cones 935
Pilocarpine
cyclodextrins, drug delivery, pupil diameter, rabbit 641
Platelet activating factor
eicosanoids, cornea, corneal PAF precursor, arachidonic acid, corneal injury, phospholipase A_2, rabbit 655
Proliferative vitreoretinopathy
transferrin, retinal pigment epithelium (RPE), monensin, antitransferrin receptor immunotoxin, cultured RPE cells, receptors 45
vitreous, 5-Fluorouridine, 5-Fluorouracil, cell injection model, rabbit 397
Prorenin
ciliary body, immunostaining, electron microscopy, human 945
Prostaglandins
intraocular pressure, aqueous humor dynamics, circadian rhythm, sulprostone, norepinephrine, sympathetic nerve, rabbit 975
retina, cornea, lens, iris-ciliary body, 15- ketoprostaglandin δ^{13}-reductase, metabolism, bovine 17
uveitis, iritis, interleukins, interleukin-1, interleukin-2, cyclosporine, rabbit 649
Protein binding
lens, alpha crystallin, urea membrane, native membrane, rat, bovine 1025
Protein kinase C
aldose reductase, Tolrestat, lens epithelium, galactosemia, lens, bovine 373
lens, myo-inositol, hyperglycemic conditions, tissue culture, phorbol esters, mixed micelle assay, bovine 403
Pseudomonas aeruginosa
contact lens, infective keratitis, cornea, bacterial adherence, pili 1067
cornea, prednisolone, ciprofloxacin, keratitis, rabbit 469

Receptors
corneal endothelium, calcium, cultured cells, neurohormones, intracellular calcium, inositol phosphates, bovine/human 303
corneal endothelium, muscarinic, cholinoceptors, human 155
inositol polyphosphates, retina, phospholipase C, vertebrates 981

lens, tyrosine kinase, developmental biology, PCR, chicken 759
Na^+ K^+-ATPase, membrane transport and permeability, lacrimal system, receptors, sex dependence, androgens, rabbit 795

Retina
antibiotics, toxicology, gentamicin, aminoglycosides, retinal toxicity, endopthalmitis, pig 521
arachidonic acid, docosahexaenoic acid, lipid metabolism, fatty acids, frog 851
blood vessels, fractal analysis, angiogram, image analysis, human 23
developmental biology, inositol phosphates, carbachol, muscarinic receptors, pigmented rat 439
diabetes, Na^+ K^+-ATPase, streptozotocin, Zucker diabetic fatty rats 1111
extracellular matrix, retinoic acid, growth factors, cell culture, acidic fibroblast growth factor (aFGF), basic fibroblast growth factor (bFGF) retinal microvascular endothelial cells 693
glutathione, oxidative damage, phospholipid hydroperoxide, glutathione peroxidase, cumene hydroperoxide, hydrogen peroxide, bovine 9
growth factors, retina organ culture, *rd* degeneration, photoreceptor proteins, immunocytochemistry, mouse 719
inositoltrisphosphate, light, release, rat 727
lamina cribrosa, optic nerve, age, proteoglycan, electron microscopy, human 685
optic nerve, confocal optical sections, three-dimensional imaging, scanning laser ophthalmoscope, human 1015
phosphodiesterase, retinal dystrophy, rcd-1 mutation, diagnostic test, progressive retinal atrophy, dog 861
photoreceptors, retinal degeneration, opsin synthesis, vitiligo, mi^{vit}, mouse 711
prostaglandins, cornea, lens, iris-ciliary body, 15- ketoprostaglandin δ^{13}-reductase, metabolism, bovine 17
Royal College of Surgeons rat (RCS rat), *Bandeiraea (Griffonia) simplicifolia* isolectin B_4, Mac-1α, phosphotyrosine, vimentin, phagocytosis, microglia 285
Royal College of Surgeons rat (RCS rat), retinal pigment epithelium (RPE), GFAP, Müller cells, immunocytochemistry, RPE transplants, rat 841
receptors, inositol polyphosphates, phospholipase C, vertebrates 981
retinal oxygenation, oxygen, tissue oxygen tension, oxygen consumption, fluorescence quenching, oxygen maps, rats 809
retinal pigment epithelium (RPE), myeloid bodies, outer segment shedding, frog 61
retinal pigment epithelium (RPE), transplantation, allotransplantation, labelled cells, rabbit 629
retinoblastoma, lens proteins, αB-crystallin, transdifferentiation, heat-shock protein, human 239
retinopathy of prematurity, fluorescein angiography, vascular pathology, oxygen, rat 561
visual pigment, photoreceptors, antibody, epitope, cones 935

Retinal degeneration
photoreceptors, retina, opsin synthesis, vitiligo, mi^{vit}, mouse 711

Retinal dystrophy
phosphodiesterase, retina, rcd-1 mutation, diagnostic test, progressive retinal atrophy, dog 861
photocoagulation, photoreceptor, retinal pigment epithelium (RPE), Royal College of Surgeons rat (RCS rat), growth factors 367

Retinal oxygenation
retina, oxygen, tissue oxygen tension, oxygen consumption, fluorescence quenching, oxygen maps, rats 809

Retinal pigment epithelium (RPE)
aging, energy, cytochrome oxidase, aging maculopathy, energy, human, bovine 1073
aging, morphology, hexagonality, area, density, fovea, human 133
calcium, membrane transport and permeability, apical membrane vesicles, sodium−calcium exchanger, fluorescent probes, bovine, dogfish 261
growth factors, acidic fibroblast growth factor (aFGF), gene expression, cell culture, human 993
inflammation, interleukins, interleukin-1, granulocyte- macrophage colony-stimulating factor, cultured human cells 205
myeloid bodies, diurnal variation, chick 37
myeloid bodies, retina, outer segment shedding, frog 61
N-acetyltransferase, arylamine, arylalkylamine, bovine 271
retina, Royal College of Surgeons rat (RCS rat), GFAP, Muller cells, immunocytochemistry, RPE transplants, rat 841
retinal dystrophy, photocoagulation, photoreceptor, Royal College of Surgeons rat (RCS rat), growth factors 367
taurine, taurine transport, human cell line, Na^+ and Cl^- dependence, high-affinity 29
transferrin, proliferative vitreoretinopathy, monensin, antitransferrin receptor immunotoxin, cultured RPE cells, receptors 45
transplantation, retina, allotransplantation, labelled cells, rabbit 629

Retinal S-antigen
experimental autoimmune uveitis, uveitis, rapamycin, immunosuppression 197
experimental autoimmune uveoretinitis (EAU), oral tolerance, splenectomy, immunosuppression, rat 833

Retinal vasculature
diabetes, ionizing radiation, rat 1009

Retinoblastoma
lens proteins, retina, αB-crystallin, transdifferentiation, heat-shock protein, human 239

Retinoic acid
extracellular matrix, growth factors, retina, cell culture, acidic fibroblast growth factor (aFGF), basic fibroblast growth factor (bFGF), retinal microvascular endothelial cells 693

Retinopathy of prematurity
fluorescein angiography, retina, vascular pathology, oxygen, rat 561

Royal College of Surgeons rat (RCS rat)
retina, *Bandeiraea (Griffonia) simplicifolia* isolectin B_4, Mac-1α, phosphotyrosine, vimentin, phagocytosis, microglia 285
retina, retinal pigment epithelium (RPE), GFAP, Müller cells, immunocytochemistry, RPE transplants, rat 841
retinal dystrophy, photocoagulation, photoreceptor, retinal pigment epithelium (RPE), growth factors 367

Sclera
collagen, immunogold, electron microscopy, immunohistochemistry, human 143

Selenite
calcium, lens, membrane transport and permeability, Ca- ATPase 213

Serotonin
5-HT, iris sphincter muscle, iris, rabbit 665

Soft drugs
mydriatics, drug delivery, corneal penetration, scopolamine, anticholinergics, rabbit 501

Sorbitol
lens, aldose reductase, hexokinase, aldose reductase mRNA, sorbitol dehydrogenase mRNA, hexokinase mRNA, mouse/rat 323

Spectroscopy
lens, lipids, membranes, Raman spectroscopy, membrane structure, saturation, human 279

T lymphocytes
keratitis, herpes simplex virus type-1, $CD4^+$ T lymphocytes, $CD8^+$ T lymphocytes, adoptive transfer, mouse 1093

Taurine
retinal pigment epithelium (RPE), taurine transport, human cell line, Na^+ and Cl^- dependence, high-affinity 29

Tear film
inflammation, immunoglobulin A (IgA), closed eye, complement, plasmin, polymorphonuclear (PMN) cells, human 1001

Tear lipocalin
gene mapping, tear prealbumin, chromosome 9q34, gene cluster, human 1019

Tears
lacrimal system, coating inhibitory factor, precipitating inhibitory factor, 30-kiloDalton glycoprotein 531

Toxicity
corneal epithelium, antimicrobial agents, gram-positive pathogens, bacterial keratitis 603

Toxicology
antibiotics, retina, gentamicin, aminoglycosides, retinal toxicity, endopthalmitis, pig 521
Trabecular meshwork
dexamethasone, morphometrics, glaucoma, electron microscopy, cultured human cells 783
fluoride, outflow facility, temperature, calf 1
glaucoma, intraocular pressure, organ culture, ethacrynic acid, human 385
Transferrin
retinal pigment epithelium (rpe), proliferative vitreoretinopathy, monensin, antitransferrin receptor immunotoxin, cultured RPE cells, receptors 45
Transforming growth factor-α (TGFα)
lens epithelium, immunohistochemistry, rabbit, monkey 1123
Transplantation
retinal pigment epithelium (rpe), retina, allotransplantation, labelled cells, rabbit 629
Tyrosine kinase
lens, receptors, developmental biology, PCR, chicken 759

Ultraviolet irradiation
lens, cataract, UVB, rainbow trout 97
lens, UVA, DNA single strand breaks, DNA repair, cultured lens epithelial cells, rabbit 773
Uveal melanoma
gangliosides, melanoma, metastasis, murine, liver 347
Uveitis
adhesion molecules, integrins, endotoxin, iritis, interleukin-1, rabbit 827
iritis, prostaglandins, interleukins, interleukin-1, interleukin-2, cyclosporine, rabbit 649
retinal S-antigen, experimental autoimmune uveitis, rapamycin, immunosuppression 197

Visual pigment
photoreceptors, retina, antibody, epitope, cones 935
Vitreous
collagen, aging, cross-links, electrophoresis, bovine, human 951
collagen, beaded fibrils, fibrils, gel, bovine 107
proliferative vitreoretinopathy, 5-Fluorouridine, 5- Fluorouracil, cell injection model, rabbit 397

Wound healing
antimicrobials, cornea, epithelial migration, adverse effects, rabbit 733
collagen, fibronectin, cornea, growth factors, transforming growth factor β (TGFβ), epidermal growth factor (EGF) corneal stromal fibroblasts 703
minoxidil, glaucoma, 2,4-pyridinedicarboxylate, trabeculectomy failure, bleb scarring, glaucoma, surgery 553
